The image displays a coronal cross-section of a human brain. The left hemisphere (viewer's right) is predominantly highlighted in a solid blue color, indicating a specific region of interest or activation. The right hemisphere (viewer's left) appears in a lighter, naturalistic tone. A vertical white line bisects the image, separating the two hemispheres. In the upper left corner, the text 'ABA: 386240' is visible, and in the lower left corner, the text 'Pn' is present. The overall background is black.
