

ABA:67765710

LH

The image is a brain scan, likely a PET or SPECT scan, showing a cross-section of the brain. The brain is represented by a blue, textured area against a black background. A vertical white line runs down the center, and a horizontal white line runs across the middle, intersecting at the center. In the bottom-left corner, there is a small, localized area of high activity, indicated by a color gradient from blue to yellow to red. This area is labeled 'LH' in the bottom-left corner. The text 'ABA:67765710' is located in the top-left corner.
