

ABA: 68076536

OB anterior

The image displays a top-down view of a brain scan. Two prominent, bright blue lobes are visible, positioned symmetrically on either side of a central vertical axis. These lobes have a somewhat irregular, cloud-like shape. A thin horizontal line crosses the middle of the image, and a thin vertical line runs down the center, intersecting at the point between the two blue lobes. The background is solid black.
