

ABA: 68191438

Pn

This PET scan image displays a coronal section of a human brain. The brain tissue is represented in shades of blue, indicating baseline metabolic activity. A prominent, localized area of increased activity, shown in bright yellow and green, is located in the upper left portion of the image, corresponding to the left frontal lobe. A vertical white line serves as a midline reference, and a horizontal white line is positioned below the brain structure. The text 'ABA: 68191438' is visible in the top left corner, and 'Pn' is in the bottom left corner.
