

ABA: 68301664

DG

A brain scan image, likely a PET or SPECT scan, showing a cross-section of a brain. The image is predominantly black, with a large, irregularly shaped blue region in the center, representing areas of increased metabolic activity or blood flow. The blue region is divided into two main lobes by a vertical white line, which is part of a grid overlay. The grid also includes a horizontal white line. The text 'ABA: 68301664' is located in the top left corner, and 'DG' is in the bottom left corner.
