

ABA: 68446063

DG

A brain scan image, likely a PET or SPECT scan, showing a cross-section of a brain. The image is predominantly black, with a large, irregularly shaped blue region in the center, indicating areas of increased metabolic activity or blood flow. The blue region is divided into several smaller, brighter blue spots, suggesting focal areas of high activity. A white grid is overlaid on the image, with a vertical line and a horizontal line intersecting at the center. The text 'ABA: 68446063' is located in the top left corner, and 'DG' is in the bottom left corner.
