

ABA: 68499548

Cb lobe

The image displays a brain scan, likely an axial slice, with a specific region highlighted in blue. This region is located in the posterior part of the brain, consistent with the cerebellum. The blue area is somewhat irregular in shape, with a few brighter spots indicating higher intensity. A white grid is superimposed on the image, with a vertical line passing through the center of the brain and a horizontal line passing through the middle of the image. The text 'ABA: 68499548' is positioned in the top left corner, and 'Cb lobe' is in the bottom left corner.
