

ABA: 68545723

CPu medial

A medial view of a brain scan showing ABA values. The image is divided into four quadrants by a vertical and a horizontal white line. The left hemisphere shows several areas of activation, with the most intense (yellow/red) located in the superior frontal region. Other smaller areas of activation are visible in the superior parietal and inferior frontal regions. The right hemisphere is predominantly blue, indicating low ABA values. The text 'ABA: 68545723' is in the top left, and 'CPu medial' is in the bottom left.
