

ABA: 68744480

VA/VL

The image is a brain scan, likely a PET or SPECT scan, showing a cross-section of the brain. A prominent bright yellow and cyan region is visible in the center, indicating high metabolic activity or a specific tracer concentration. This central region is surrounded by a larger area of blue, which represents lower activity. The entire scan is set against a black background. A white crosshair is overlaid on the image, with the vertical line passing through the center of the bright region. The text 'ABA: 68744480' is located in the top left corner, and 'VA/VL' is in the bottom left corner.
