

ABA:68797502

Arc

This figure displays a brain scan image, likely an fMRI or PET scan, showing a localized area of high activity (yellow/red) in the left hemisphere, labeled ABA:68797502. The image is divided into four quadrants by a vertical and horizontal line. The label 'Arc' is positioned in the bottom left corner. The high-activity region is located in the upper left quadrant, near the center of the brain slice.
