

ABA: 69012783

CA1

This image is a fluorescence micrograph of a brain section, likely from a rodent. The brain tissue is stained with a blue fluorescent marker, possibly DAPI, which highlights the nuclei of cells. A specific region in the left hemisphere, labeled 'CA1', shows a bright, localized signal, indicating a high concentration of the fluorescent marker or a specific cellular response. The image is overlaid with a white grid, and the text 'ABA: 69012783' is visible in the top left corner.
