

ABA: 69080504

VA/VL

The image is a brain scan, likely a PET or SPECT scan, showing a cross-section of the brain. The brain is represented by a blue, textured area against a black background. A prominent bright spot, indicating high metabolic activity, is located in the central region of the brain, slightly to the left of the midline. A vertical white line runs through the center of the brain, and a horizontal white line runs across the middle, intersecting at the bright spot. The text 'ABA: 69080504' is in the top left corner, and 'VA/VL' is in the bottom left corner.
