

ABA: 69169349

CA1

This is a fluorescence microscopy image of a brain section, likely from a rodent. The image shows a coronal slice with a central vertical sulcus. The left hemisphere (viewer's left) shows a bright blue fluorescent signal, particularly concentrated in the CA1 region of the hippocampus. The right hemisphere (viewer's right) shows a much dimmer, uniform blue signal. A white crosshair is overlaid on the image, with the vertical line passing through the central sulcus. The text 'ABA: 69169349' is in the top left, and 'CA1' is in the bottom left.
