

ABA: 69169941

VMH

This image is a fluorescence microscopy scan of a brain section. A vertical white line divides the image into two halves. The left half shows a brain with a localized, bright signal in the ventral medial hypothalamus (VMH) region, indicated by a yellow-to-red color scale. The right half shows a brain with no signal, appearing as a uniform blue background. The text 'ABA: 69169941' is in the top left, and 'VMH' is in the bottom left.
