

ABA: 69174469

CA1

A coronal brain slice image, likely from a rodent, showing a blue highlighted region in the left hemisphere. The image is overlaid with a white grid. The text "ABA: 69174469" is in the top left, and "CA1" is in the bottom left. The blue region is located in the lower-left quadrant of the brain slice, possibly representing a specific anatomical area or a region of interest.
