

ABA: 69262116

A anterior

The image is a grayscale brain scan, likely a PET or SPECT scan, showing a cross-section of the brain. A central region, possibly the thalamus or a similar deep brain structure, is highlighted in a bright blue color, indicating a specific area of interest or abnormality. The rest of the brain tissue is shown in shades of gray. The image is framed by a black border. At the top left, the text 'ABA: 69262116' is displayed in white. At the bottom left, the text 'A anterior' is displayed in white, indicating the orientation of the scan.
