

ABA: 69290716

SCN

A coronal brain section image showing two large, symmetrical blue regions, likely representing the hippocampus. The image is divided into four quadrants by a vertical and a horizontal white line. The text 'ABA: 69290716' is in the top-left quadrant, and 'SCN' is in the bottom-left quadrant. The blue regions are located in the upper half of the image, spanning across the vertical line.
