

ABA: 69407086

CA1

This is a fluorescence microscopy image of a brain section. The image is divided into four quadrants by a vertical and a horizontal white line. The left half of the image shows a complex, irregularly shaped region with a blue-to-yellow color gradient, indicating varying levels of fluorescence. The right half of the image is a solid, uniform blue shape. The text 'ABA: 69407086' is located in the top left corner, and 'CA1' is in the bottom left corner.
