

ABA: 69528136

CA1

This is a fluorescence microscopy image of a brain section, likely from a rodent. The image shows a coronal slice with a central vertical structure, possibly the corpus callosum, and two large, dark, symmetrical regions on either side, which are the cerebral hemispheres. The CA1 region is highlighted in a bright blue color, indicating the presence of a specific marker or protein. The image is divided into four quadrants by a horizontal and a vertical white line. The text 'ABA: 69528136' is in the top left, and 'CA1' is in the bottom left.
