

ABA: 69549654

CA1

A brain scan image, likely an MRI or PET scan, showing a cross-section of the brain. The image is predominantly black, with a bright blue highlighted region on the left side, which is labeled 'CA1'. The blue region appears to be a cluster of voxels, possibly indicating a specific anatomical structure or a region of interest. The image is overlaid with a white grid, consisting of a vertical line and a horizontal line, which divide the image into four quadrants. The text 'ABA: 69549654' is visible in the top left corner, and 'CA1' is visible in the bottom left corner.
