

ABA: 69671845

A posterior

A brain scan image, likely a PET or SPECT scan, showing a cross-section of the brain. The image is predominantly blue, indicating low activity, with a small, bright yellow and red area in the lower-left quadrant, indicating high activity. A white crosshair is overlaid on the image, with the vertical line passing through the center of the brain and the horizontal line passing through the lower-left quadrant, near the area of high activity.
