

ABA: 69672132

SPa ventral

The image features two identical, symmetrical blue shapes that resemble brain hemispheres or cross-sections of a brain. They are positioned on either side of a central vertical white line. The shapes are filled with a solid blue color and have a slightly irregular, organic edge. The background is a solid black color. In the top left corner, the text 'ABA: 69672132' is written in a white, monospaced font. In the bottom left corner, the text 'SPa ventral' is written in the same white, monospaced font. A horizontal white line also crosses the image, intersecting the vertical line in the center, creating a crosshair effect.
