

ABA: 69818344

S0

This image is a coronal brain scan, likely an MRI, showing a cross-section of the brain. The brain tissue is represented in shades of blue against a black background. A prominent, bright blue spot is visible in the central region of the brain, possibly indicating a lesion or a specific anatomical feature. The image is overlaid with a white grid consisting of two vertical and one horizontal line, dividing the brain into sections. The text 'ABA: 69818344' is located in the top left corner, and 'S0' is in the bottom left corner.
