

ABA: 69873540

CA2/CA3

This is a fluorescence microscopy image of a brain section, likely from a rat, showing the CA2/CA3 region. The image is a grayscale representation of a color image where blue indicates low fluorescence and yellow/green indicates high fluorescence. The CA2/CA3 region is located in the hippocampus and is characterized by a dense network of neurons. The image shows a clear pattern of fluorescence, with a bright yellow/green area in the center, indicating high fluorescence, and a blue area on the right, indicating low fluorescence. The image is divided into four quadrants by a vertical and a horizontal line. The text 'ABA: 69873540' is in the top left corner, and 'CA2/CA3' is in the bottom left corner.
