

ABA: 69885582

CA1

This is a fluorescence microscopy image of a brain section. The image is divided into four quadrants by a white crosshair. The left half of the image shows a complex, irregularly shaped region with a color gradient from blue to yellow, indicating varying levels of fluorescence. The right half of the image is a solid, uniform blue. The text 'ABA: 69885582' is located in the top left corner, and 'CA1' is located in the bottom left corner.
