

ABA:70230902

PAG

The image is a brain scan, likely a PET or SPECT scan, showing a cross-section of a brain. A vertical line divides the image into two halves. The left half shows a localized area of high activity, indicated by yellow and orange colors, which is more intense than the surrounding blue areas. The right half shows a more uniform, lower-level activity represented by blue. The text 'ABA:70230902' is in the top left, and 'PAG' is in the bottom left.
