

ABA:70238004

VMH

This fluorescence microscopy image displays a coronal section of a brain. The image is characterized by a dark background with a blue-toned brain structure. A distinct, bright yellow-green spot is visible in the upper-left quadrant of the brain section, indicating a localized area of high fluorescence. A vertical white line runs down the center of the image, and a horizontal white line runs across the middle, intersecting at the center of the brain section. The label 'ABA:70238004' is positioned in the top-left corner, and 'VMH' is located in the bottom-left corner.
