

ABA:70238991

CA2/CA3

This is a fluorescence microscopy image of a brain section, specifically highlighting the CA2/CA3 region. The image is characterized by a dark background with a central area of bright, multi-colored fluorescence (yellow, orange, and red) indicating high signal intensity. This central area is surrounded by a larger, less intense blue region. The image is overlaid with a white grid consisting of a vertical line and a horizontal line intersecting at the center of the bright area. The text 'ABA:70238991' is visible in the top left corner, and 'CA2/CA3' is visible in the bottom left corner.
