

ABA:70300451

SPa ventral

The image displays two grayscale brain scans of a mouse, labeled ABA:70300451 and SPa ventral. The scans are presented side-by-side, separated by a vertical line. A horizontal line intersects the vertical line at the midline of the brain. The brain tissue is visible as a lighter gray area against a darker background. The label ABA:70300451 is located at the top left, and the label SPa ventral is located at the bottom left.
