

ABA: 70598393

Tg

The image displays a fluorescence microscopy scan of a plant tissue section, likely a leaf. The tissue is stained with a blue fluorescent marker, appearing as a large, irregularly shaped area against a black background. A prominent, bright cyan spot is visible in the upper-left quadrant, indicating a specific point of interest or a high concentration of the fluorescent marker. The image is divided into four quadrants by a white crosshair. The text 'ABA: 70598393' is located in the top-left corner, and 'Tg' is in the bottom-left corner.
