

ABA:70927425

SC

This image shows a cross-section of a plant root, likely from a legume, stained with a fluorescent marker. The root is divided into four quadrants by a vertical and a horizontal line. A bright, localized spot of fluorescence is visible in the upper left quadrant, indicating the presence of the marker. The rest of the root section shows a uniform, low-level fluorescence. The label 'ABA:70927425' is in the top left, and 'SC' is in the bottom left.
