

ABA:71211302

VMH

The image shows a coronal section of a rodent brain. A specific region in the medial prefrontal cortex is highlighted in blue. This region is roughly oval-shaped and located in the anterior part of the brain, symmetrically on both sides of the midline. The rest of the brain tissue is shown in grayscale. A white crosshair is overlaid on the image, with the vertical line passing through the center of the brain and the horizontal line passing through the blue region. The text 'ABA:71211302' is in the top left, and 'VMH' is in the bottom left.
