

ABA:71380893

S0

The image displays a brain scan, likely an MRI or PET scan, with a white grid overlay. A prominent, localized area of high intensity, colored yellow and white, is visible in the upper central region of the brain. This area is surrounded by a larger region of blue, which is set against a black background. The text 'ABA:71380893' is located in the top left corner, and 'S0' is in the bottom left corner.
