

ABA: 71656894

CA1

This is a fluorescence microscopy image of a brain section. The image is divided into four quadrants by a white crosshair. The left half of the image shows a complex, multi-colored pattern of fluorescence, with a prominent yellow and red area in the upper-middle section and a smaller red area in the lower-left. The right half of the image is predominantly blue, indicating a different fluorescence profile. The text 'ABA: 71656894' is located in the top-left corner, and 'CA1' is in the bottom-left corner.
