

ABA:71717079

Arc

The image is a brain scan, likely a PET or SPECT scan, showing a cross-section of a brain. The brain is represented by a blue, somewhat irregular shape against a black background. A vertical line and a horizontal line intersect at the center of the brain. At the bottom center of the brain, there is a small, localized area of high activity, colored yellow and red, indicating a region of increased metabolic or functional activity. The text 'ABA:71717079' is in the top left corner, and 'Arc' is in the bottom left corner.
