

ABA:72008122

Hb

This is an axial brain scan image, likely from a functional MRI study, showing hemoglobin (Hb) concentration. The image is a grayscale representation of a brain slice, with a central vertical line indicating the midline. The brain tissue is shown in shades of gray, with darker areas representing higher Hb concentration. The image is divided into four quadrants by a horizontal and vertical line. The text 'ABA:72008122' is visible in the top left corner, and 'Hb' is visible in the bottom left corner.
