

ABA: 72283551

Cb lobe

A brain scan image, likely a PET or SPECT scan, showing a cross-section of the brain. The image is predominantly black, with a blue highlighted region in the left hemisphere (viewer's left). The blue region is irregularly shaped and appears to be located in the posterior part of the brain, possibly the occipital lobe. The image is overlaid with a white grid consisting of three vertical and three horizontal lines, creating a 2x2 grid of larger squares. The text 'ABA: 72283551' is in the top left corner, and 'Cb lobe' is in the bottom left corner.
