

ABA:73497581

DM

This figure is a brain scan image, likely a PET or SPECT scan, showing a cross-section of a brain. The image is divided into two hemispheres by a vertical white line. The left hemisphere (viewer's left) shows a localized area of high activity, indicated by a yellow/green color, which is significantly brighter than the surrounding blue areas. The right hemisphere (viewer's right) is mostly blue, indicating low activity. The text 'ABA:73497581' is in the top left, and 'DM' is in the bottom left.
