

ABA:73606609

ventral S

A brain scan image, likely an fMRI or PET scan, showing a cross-section of the brain. The image is predominantly blue, indicating low activity. A vertical strip of high activity, colored yellow and red, is visible on the left side of the brain, extending from the top to the bottom. The image is labeled 'ABA:73606609' at the top and 'ventral S' at the bottom left.
