

ABA: 74047922

VMH

A coronal brain scan image showing a cross-section of the brain. The image is color-coded, with blue representing baseline activity and yellow/green indicating areas of increased activity. A prominent yellow-green region is visible in the medial prefrontal cortex (VMH) area, bilaterally. The image is divided into four quadrants by a vertical and a horizontal white line. The text 'ABA: 74047922' is in the top left, and 'VMH' is in the bottom left.
