

ABA: 74357551

Hb

This image is a coronal brain scan, likely a PET or SPECT scan, showing a cross-section of the brain. A prominent bright spot, colored yellow and orange, is located in the center of the brain, indicating a region of high metabolic activity or tracer concentration. The surrounding brain tissue is shown in shades of blue, representing lower activity levels. A white crosshair is overlaid on the image, intersecting at the center of the bright spot. The text 'ABA: 74357551' is displayed in the top left corner, and 'Hb' is in the bottom left corner.
