VMH

The image shows a coronal section of a rodent brain. A large, irregularly shaped area in the medial prefrontal cortex is highlighted in a solid blue color. This area is roughly triangular, pointing towards the midline, and is situated anterior to the lateral ventricles. The rest of the brain tissue is shown in grayscale. A vertical white line runs through the center of the brain, and a horizontal white line is positioned below the brain slice. The text 'ABA:74425551' is in the top left, and 'VMH' is in the bottom left.
