

ABA:74579422

SPa ventral

This fluorescence microscopy image displays two large, roughly circular blue fluorescent structures, likely representing the ventral view of a SPa (Symbiotic Prokaryotic Ancestor). The structures are separated by a vertical line, possibly a midline or a gap. The background is black, and the fluorescence is a uniform blue color. The text 'ABA:74579422' is visible in the top left corner, and 'SPa ventral' is visible in the bottom left corner.
