CA1

This is a fluorescence microscopy image of a brain section, likely from a rodent. The image shows a coronal slice with a central vertical sulcus. The CA1 region, which is part of the hippocampus, is highlighted in bright blue. The rest of the brain tissue is dark. A white crosshair is overlaid on the image, with the vertical line passing through the center and the horizontal line passing through the CA1 region. The text 'ABA:74819242' is in the top left corner, and 'CA1' is in the bottom left corner.
