

ABA:75144703

DM

The image displays a coronal cross-section of a human brain. A vertical white line runs down the center, representing the midline. A horizontal white line crosses the brain at approximately the level of the lateral ventricles. The brain tissue is shown in a dark blue color, while the surrounding areas are black. The highlighted region is located in the left hemisphere, specifically in the area of the lateral ventricle and the surrounding white matter. The text 'ABA:75144703' is located in the top left corner, and 'DM' is in the bottom left corner.
