

ABA: 75749418

ventral S

This is a fluorescence microscopy image of a brain section, likely a coronal slice. The image shows two prominent, bright, curved structures, possibly representing the cerebral hemispheres or specific brain regions. The structures are outlined in a bright yellow-green color, indicating high fluorescence intensity. The background is dark blue, suggesting low fluorescence in the surrounding tissue. A horizontal white line is visible across the middle of the image, and a vertical white line is visible on the left side, intersecting the horizontal line. The text 'ABA: 75749418' is located in the top left corner, and 'ventral S' is located in the bottom left corner.
