

ABA:75774678

DM

This image is a coronal brain scan, likely an fMRI or PET scan, showing a cross-section of the brain. A blue highlighted region is visible in the medial frontal area, which is labeled with the text 'ABA:75774678' in the top left corner. The label 'DM' is located in the bottom left corner. The brain is divided into two hemispheres by a vertical line, and a horizontal line crosses the middle of the image. The highlighted region is located in the upper part of the brain, near the top of the image.
