IC

A brain scan image, likely an axial slice, showing activation patterns. The image is color-coded, with blue representing baseline or low activity, and yellow/red indicating areas of higher activation. There are two prominent clusters of high activation in the upper central region, and a smaller cluster in the lower left. A vertical white line is drawn through the center of the image, and a horizontal white line is drawn across the middle. The text 'ABA: 76085743' is in the top left, and 'IC' is in the bottom left.
