

ABA:77280313

Pn

This is a false-color astronomical image of a planetary nebula (Pn). The central region is the brightest, appearing in shades of yellow and red, indicating high intensity. The surrounding structure is more diffuse and appears in shades of blue and cyan. A white crosshair is overlaid on the image, with the label 'ABA:77280313' in the top left and 'Pn' in the bottom left.
