

ABA: 77454991

SCN

This image is a fluorescence micrograph of a coronal brain section. The image is divided into four quadrants by a vertical and a horizontal white line. The top-left quadrant contains the text 'ABA: 77454991'. The bottom-left quadrant contains the text 'SCN'. The brain tissue is stained with a blue fluorescent dye. The left hemisphere (relative to the vertical line) shows a bright, curved band of high-intensity blue fluorescence, while the right hemisphere shows a more uniform, lower-intensity blue fluorescence. The text 'SCN' likely refers to the Suprachiasmatic Nucleus, which is located in the hypothalamus.
